(54) POCKET FOR CLOTHING

COPYRIGHT: (C)1996,JPO

(57) Abstract:

PURPOSE: To obtain the subject pocket capable of preventing the shape of an edge of a pocket opening from being lost or deformed or nonuniformly hanging, etc., due to wearing for a long period or washing, etc., by attaching a shape memorizing alloy member in a sealed state to at least one edge in the pocket opening.

CONSTITUTION: This pocket for clothing is obtained by attaching a shape memorizing alloy member 9 capable of recovering the shape, preferably at the body temperature or clothes temperature along an interlining cloth, providing a sealed state with another cloth, installing the sealed member on the inside of a lower bound part 7 (and an upper bound part 8) of an edge 10 mutually opposite nipping the pocket opening 5. Thereby, the clothes, pleasant in appearance and decently wearable are obtained.
